

FAST-ACTING MULTI-PURPOSE CLEANER & DISINFECTANT WORKS IN SECONDS, LASTS FOR HOURS

At Byotrol, we recognise the value of operational efficiency, as well as the constant need to protect the health of your customers and employees.

Byotrol's 4 in 1 Multi-Purpose Surface Cleaner and Disinfectant combines the power and efficacy of four products into one; removing dirt and stains, neutralising odours, as well as general cleaning and rapid disinfection.

Unlike traditional cleaners, Byotrol 4 in 1 Multi-Purpose Surface Cleaner and Disinfectant works even when dry, protecting hard surfaces from bacteria, yeasts, and enveloped viruses between cleans.

Byotrol 4 in 1 is designed to ensure that frequently-touched surfaces in high-traffic environments are protected from bacteria, yeasts, and enveloped viruses for up to 24-hours. This multi-purpose formulation can also be used on hard and soft surfaces to combat organic stains and odours, and repels dirt after application, leaving surfaces cleaner for longer.

Fast acting in just
60 seconds*

Suitable for use
on soft surfaces

Removes stains
and odours

Long lasting
protection

Care Homes

Maintain a healthier environment within close communities, on a variety of hard and soft surfaces, while using less chemicals more effectively.

Education & Offices

Hard working, fast acting formulation which kills bacteria in seconds, is tough on organic stains and odours, yet is gentle on surfaces and doesn't require rinsing after use.

Fitness

Create a pleasant and hygienic environment for staff and guests, with long lasting protection between cleans, even on frequently touched equipment and VDUs.

Animal Health

Clean and sanitise frequently touched areas of animal welfare environments, reducing the spread of infection between people.

EXCEPTIONAL ANTIMICROBIAL ACTIVITY

Bactericidal, yeasticidal and virucidal against enveloped viruses

Effective against Norovirus, Rotavirus, Influenza A (H1N1, Swine Flu), Coronavirus, Vaccinia Virus, Feline Calicivirus, Pseudomonas aeruginosa, MRSA, Campylobacter jejuni, Salmonella typhimurium and Listeria monocytogenes.

Byotrol 4 in 1 Multi-Purpose Surface Cleaner and Disinfectant has been tested to the following test standards:

EN 1276 (bactericidal)
EN 1656 (bactericidal)
EN 14349 (bactericidal)
EN 13697 (bactericidal, yeasticidal, fungicidal)
EN 1650 (yeasticidal)
EN 16438 (fungicidal)
EN 14476 (virucidal against all enveloped viruses)
EN 14476 (Norovirus, Rotavirus)
EN 14675 (Feline Calicivirus)
BSI PAS2424 to demonstrate 24 hour efficacy against bacteria, yeast & enveloped viruses
EPA Hard Surface Mildew Fungistatic Test to demonstrate 7 day efficacy against mould & mildew

Added Benefits:

- *Quick kill of harmful bacteria and enveloped viruses in 60 seconds
- Proven efficacy in both PT2 and PT3 environments
- Flexible ready-to-use or concentrate formats available
- Removes organic stains without bleach
- Neutralises odours without masking
- Leaves a fresh, clean fragrance
- 5L refill suitable for replenishing trigger sprays, to reduce environmental impact
- Range utilises post-consumer recycled plastic packaging**
- Multi-purpose product reduces supplier and portfolio complexity
- Compliant with the Biocidal Products Regulation, including Article 95, and CLP

Product	Size	Reorder Code	Units per case	Cases per layer	Layers per pallet
4 in 1 Multi-Purpose Surface Cleaner and Disinfectant Concentrate	5 litre	SLC0005	2	20	4
4 in 1 Multi-Purpose Surface Cleaner and Disinfectant RTU Spray	750ml	SLR0750	6	25	4
Colour-coded Dilution Labels (4 colours)	200 labels	ANC018	1	N/A	N/A

Use biocides safely. Always read the label and product information before use. **5L bottle is made using 30%+ recycled plastic. Contact Byotrol for further information.

Byotrol is committed to supporting its customers and end-users with best practice biosecurity training, for product documentation and training resources visit our customer portal at byotrol.com/resources
